

MAIN MENU (Action: Slides over main screen)

Profile:

- Edit contact details
- Add a profile image
- Preview Verified Certificate

Account Settings:

- Edit privacy settings (e.g. info to appear on 3rd parties mobile once QR is scanned)
- Change or add business card

MAIN SCREEN (Note: Screen will be populated depending on the icon that has been selected)

Main Menu Icon:

Opens main menu as described in image 1

Plus Menu Button:

Reveals the feature icons (PBs, Contacts, Camera, Messaging, News Feed)

QR Business Card:

Reveals the users business card which can be scanned by a third party. Where multiple business cards have been created, these will appear once a user has tapped a first time, the second tap will select the preferred business card with the required privacy settings imbedded in the QR code.

QR BUSINESS CARD (Accessed by tapping QR Business Card under Verified Logo)

QR Business Card:

- Reveals the user's virtual business card with unique QR code
- QR code once scanned will import permitted info to the 3rd parties mobile device. 3rd Party can store info, share info or close the screen.
- User can select from a range of business card options, some free some for sale, and some that 3rd parties can design and pay to host on the platform.
- If a user taps and NFC enabled business card, our app will be woken to accept and user requested to choose the app to view the request.

PLUS MENU ICON

Home Icon:

Populates the screen with a list of professional bodies the user is associated with

Contacts Icon:

Populates the screen with the users verified contacts. Also exports Verified contacts identified from the users existing contacts (*Think WhatsApp*)

Messaging:

Allows users to receive communication from professional bodies and professionals in their contact list directly to their messages.

RSS Icon:

Opens a news feed (bulletin board) showing all communication from professional bodies. Users can not post but can comment, like, share and vote on particular topics posted by the bodies. Think Facebook business page.

Camera:

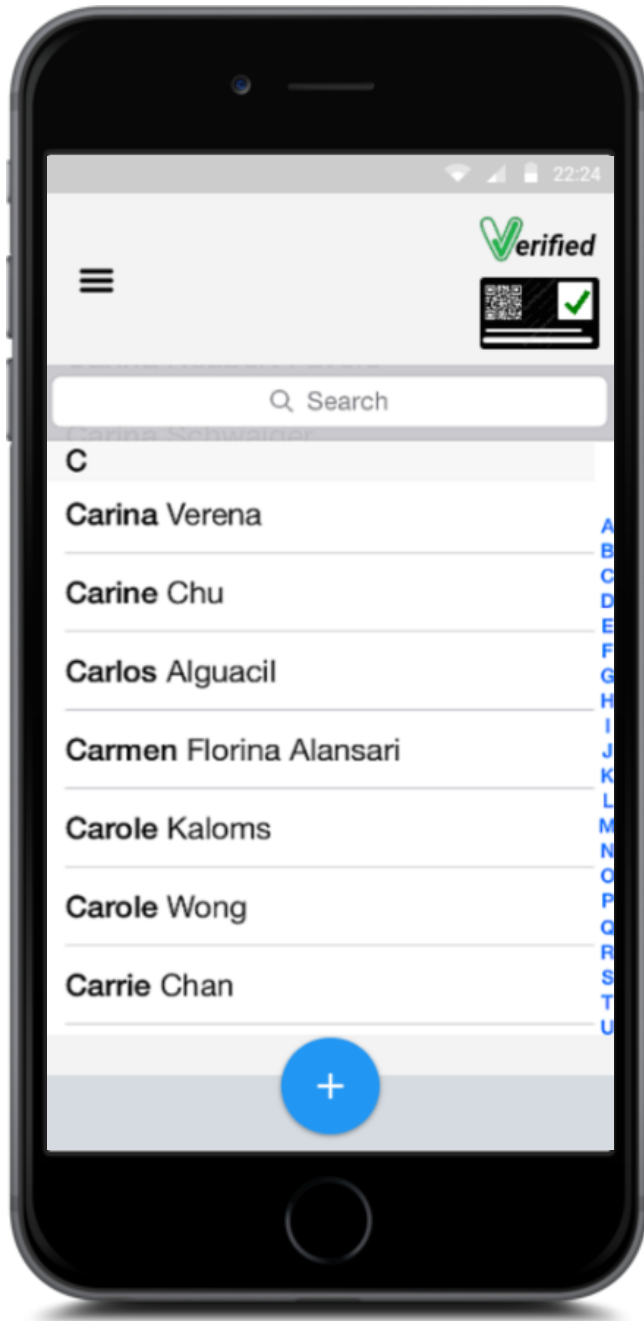

Opens camera to view and scan QR code

List of Professional Bodies (Accessed through Home Icon)

List of Professional Bodies:

- Tapping on a listed PB: Reveals information relating to their user's relationship with the PB (*i.e. level of affiliation, commencement date, terms of reference*), a basic profile of the PB. From the profile screen user can access the PB's news feed or send a DM
- Swiping left will reveal privacy settings relating to that PB (e.g. *Show to Public/Hide from Pubic*)
- The list can be reordered or viewed as Thumbnails
- The number of PBs to fit on a screen can also be adjusted in the main menu under account settings. If user selects to fit 3 or less, the PB's news feed will also be displayed under the PB's name
- Swiping right will allow the user to change the preview displayed under the PB name (*i.e. view news feed preview or view DM preview*)
- User scrolls up to reveal other PBs in the list

Verified Professionals Contact List (Accessed through Contacts Icon)

List of Professional Bodies:

- A single contact can be selected to view more details (incl. Contact details, contact's list of associated verified bodies, business card image).
- A DM can be sent directly to the contact
